

is now offering
RADON SERVICES
TESTING & MITIGATION SYSTEMS

1

Radon is seven times more likely to kill you than a house fire. Knowing your Radon levels is imperative in order to maintain a safe home.

1 in 3 homes in Sioux Falls are estimated to have elevated levels of radon gas.

2

3

The Environmental Protection Agency has designated the Sioux Falls area as the highest risk zone for radioactive radon gas.

Don't panic in the event elevated radon levels are found in your home. Waterbury has a professionally designed radon mitigation system that will drastically reduce radon levels. This system can typically be installed by one of our specialists in less than a day.

4

REALTORS RECEIVE **SPECIAL RADON** DISCOUNTS

Realtors receive a **15%** discount on a standard radon mitigation installation!

Additionally, you have an opportunity to receive a **15%** discount on an air conditioner or furnace routine, duct cleaning, plumbing and electrical service if quoted at the same time as the mitigation system.
